

# French Curriculum - Long Term Plan

NB: There are 12 topics to cover over the year (14 for UKS2). Each topic must be taught in depth in order for the children to be able to access the new learning for each topic, each year. This means that all topics must be revisited little and often throughout the year **after** they have been initially taught.

The topics have been set out in a way that allows teachers and children to use prior learning in each new topic. *For example: when teaching My Family & I, children will be able to use their knowledge of the Numbers topic to talk about their family, their body (I have two legs, 5 fingers etc.) and they will be able to use their Greetings knowledge to express their family members' names.*
